# SUMMARY

This Publication contains Statistics on entry and clearance of ships with Cargo or in Ballast. The statistics of shipping in the foreign trade of India are based on the returns received from the Customs Authorities of Kolkata, Tiruchirappalli, Thiruvanthapuram, Mumbai, Visakhapatnam, Bhubaneswar, Ahmadabad, Bangalore and Pune Customs Zones. For Coasting Trade, the data are compiled on the basis of returns received from the Customs Authorities of maritime blocks Visakhapatnam, Andhra Pradesh, Goa, Gujarat, Karnataka, Kerala, Maharashtra, Orissa, Tamil Nadu and West Bengal.

FOREIGN TRADE			
ENTRY		CLEAR	
CARGO	BALLAST	CARGO	BALLAST

Vessels in the foreign trade are recorded as entering on the voyages inwards at the first Indian port at which cargo are discharged and as clearing on the voyages outward at the last Indian port at which cargo is loaded. In other words, the inward foreign voyage ends at the first Indian port touched for discharging cargo. Similarly, the outward foreign voyages begins with departure from a port in India after loading cargo for some destination abroad without touching other Indian ports. However, if an Indian port is only a port of call in a voyage from or to a foreign port beyond India, the entry or clearance will be recorded as in foreign trade

Inward voyage of a ship at a port from another Indian port and outward voyage to another Indian port is recorded as entry and clearance in coasting trade. Vessels clearing to or entering from a non-registered Indian port are also recorded in the coasting trade unless the port is only a port of call in a voyage from or to a foreign port.

COASTAL TRADE			
ENTRY		CLEAR	
CARGO	BALLAST	CARGO	BALLAST

The data regarding ships are provided in terms of number and tonnage of vessels. The tonnage is the net registered tonnage i.e. the entire capacity of the vessels in terms of hundred cubic feet (i.e. gross tonnage) minus certain deduction for the space occupied by engines, crew's quarters etc.

## A note on the Concepts and Definition of the terms

### **Entry and Clearance of Ships in the Foreign Trade**

Vessels in the foreign trade are recorded as entering on the voyages inwards at the first Indian port at which cargo are discharged and as clearing on the voyages outward at the last Indian port at which cargo is loaded. In other words, the inward foreign voyage ends at the first Indian port touched for discharging cargo. Similarly, the outward foreign voyages begins with departure from a port in India afterloading cargo for some destination abroad without touching other Indian ports. However, if an Indian port is only a port of call in a voyage from or to a foreign port beyond India, the entry or clearance will be recorded as in foreign trade.

### **Country where Entered and Country from which Cleared**

A vessel bringing cargo from more than one foreign port is recorded as entering from the most distant port at which cargo for India was loaded. Conversely, a vessel with cargo departing from India for more than one foreign port is recorded as clearing for the most distant port at which cargo from India would be off-loaded. Vessels in 'Ballast' are recorded with regard to both entry and clearance in the same way as vessels with cargo.

### **Shipping in Coasting Trade**

Inward voyage of a ship at a port from another Indian port and outward voyage to another Indian port is recorded as entry and clearance in coasting trade. Vessels clearing to or entering from a non-registered Indian port are also recorded in the coasting trade unless the port is only a port of call in a voyage from or to a foreign port.

According to the above criteria, if on its inward voyage a ship coming from foreign port has already entered an Indian port to discharge only a part of its cargo and then proceeds to other port in India, its clearance from the first Indian port and entry at the subsequent Indian port(s), are recorded as movement in the coasting trade irrespective of where the ship is loaded with any cargo at the Indian port or not. Conversely, for a vessel on the voyage outwards loaded with part cargo for a foreign port and part for some other port or ports in India, its movement is recorded at the first port of departure as cleared for coasting trade and such vessel is again recorded as cleared for foreign trade at the last Indian port.

# SOURCE OF DATA

The statistics of shipping in the foreign and costal trade of India are based on the returns received from the Indian Ports, Indian Customs Zones and Indian Maritime Boards. The data are compiled on the basis of returns received from the above sources. Officers & officials from this office sometime have to visit certain Custom house as well as Ports to collect the required data and to seek some clarifications on data received. This year we have received the data from **twenty four ports** in India.

The data regarding ships are provided in terms of number and tonnage of vessels movement in India. The tonnage is the net registered tonnage i.e. the entire capacity of the vessels in terms of hundred cubic feet (i.e. gross tonnage) minus certain deduction for the space occupied by engines, crew's quarters etc.
