Preface

Trade has several aspects, many of which seldom come to the forefront. For example, people would like to know about the trade through Foreign Post Offices, or even enquire about the major commodities that are traded through airports. Another aspect of trade includes transit to other countries like Nepal and Bhutan that is carried out through India. These aspects, albeit important, are rarely factored into the daily discussions on trade. The Directorate General of Commercial Intelligence and Statistics (DGCIS) regularly comes out with its publication the **Selected Statistics of Foreign Trade of India during 2021-22** which tells about such aspects of trade, which though are minute, are almost indispensable to have a complete view of Foreign Trade in India.

In this edition we provide information on many diverse aspects of trade in India for the year 2021-22. It is hoped that it will be of immense help to its readers, as had been in earlier years, since the information on such aspects are rarely found in any other publication.

Any comment or suggestion towards the improvement of this publication or including any interesting yet novel dimension of Indian Trade, which is generally not included elsewhere, will be highly appreciated.

INTRODUCTORY NOTE

This annual publication contains the statistics for 2021-22 in respect of certain important aspects of the foreign trade of India, which are not separately available in other related publications of this Directorate. Some of these aspects are mentioned below:

I. Data of India's foreign trade in treasure including currency notes are presented in the publication on a yearly basis.

II. India's foreign trade (value only) data in merchandise is shown according to Customs Zones.

III. The unit value and Quantum indices of foreign trade of India published in this volume are constructed by using Laspeyres formula.

IV. Three types of terms of trade are regularly constructed by this office. These are Net Terms of Trade, Gross Terms of Trade and Income Terms of Trade.

❖ Net Terms of trade is defined as the ratio of unit value index of exports to that of imports.

❖ Gross Terms of Trade is defined as the ratio of quantum index of imports to that of exports, whereas

❖ Income Terms of Trade is defined as products of Net Terms of Trade and quantum index of exports. All these are, however, expressed in percentages.

V. The quantity and value of principal articles imported into and exported through foreign post offices and classified according to kind have been presented here. The data are compiled from returns received from Foreign Post Offices. Quantities for some of the commodities are shown as '0' owing to insignificant value compared to their units.

VI. Information on the quantum of imports of certain items like liquors, spirit, wines, oil (Mineral including kerosene, diesel, lubricating oils and HSD), cigarette, tobacco, condensed milk, soap etc. which are left unclaimed in the customs bonded warehouses at the end of the accounting year are shown in the publication according to Customs Zones.

VII. The direct transit trade of both the neighboring land-locked countries namely Nepal and Bhutan passing through India are shown by the country of consignment in case of imports and by the country of destination in case of exports. An attempt for giving commodity code in 8-digit ITC(HS) along with the name of the commodities passing through the direct transit trade has been made from 2011-12 publication. The statistics are compiled on the basis of returns received from Customs Offices.

VIII. India's foreign trade (both export and import) through India's major airports have been covered to analyze the trade pattern of principal commodities through air.

A Brief Review of Selected Statistics of Foreign Trade of India during 2021-22

1. TOTAL MERCHANDISE TRADE:

During 2021-22, total export¹ was Rs. 31,47,021 crores showing an increase by (+) 45.76% over that in 2020-21 while total import² was Rs. 45,72,775 crores, an increase by (+) 56.82% over 2020-21. After decline of both Export and Import in Value term for two consecutive years, this year both Export and Import registered an increase in Value term. This reflects an improvement of Merchandise Trade.

2. BALANCE OF TRADE:
